

Interactive comment on “Implications of model error for numerical climate prediction” by O. Martínez-Alvarado

O. Martínez-Alvarado

O.MartinezAlvarado@reading.ac.uk

Received and published: 5 June 2014

Given that the revised version is undergoing a new round of reviews by referees and therefore it might never see the light otherwise, I am attaching it as a supplement to this comment. In this way those readers of the original version that have followed the discussion will not feel like watching a good movie without watching the end.

Please also note the supplement to this comment:
