## ***Interactive comment on “Large eddy simulation of sediment transport over rippled beds” by J. C. Harris and S. T. Grilli***

### **Anonymous Referee #1**

Received and published: 7 August 2014

An error occurred in the last listing on p. C173. Please find the correct listing below:

Section 4.5 and 4.6 : Does the missing ADV data near the bed have a substantial influence on the experimental determined values of the sediment fluxes? Further discussion of this influence is required.
