Received and published: 27 September 2014

This is the itemized response to the comments by Dr. R.V. Donner, Nonlin. Processes Geophys. Discuss., 1, C317–C322, 2014, on our manuscript NPGD, 1, 841–876, 2014, titled “An improved ARIMA model for hydrological simulations”. Given the format issue, please see the point-to-point responses to each comment in the detailed PDF format named “Reply to comments of RV Donner.pdf”. Thanks.

Please also note the supplement to this comment:
