

Interactive comment on “Synchronicity as an essential property of solar–terrestrial relations: latent components” by V. A. Tartakovsky

N. S. Erokhin (Editor)

nerokhin@iki.rssi.ru

Received and published: 21 October 2015

As editor I think that this paper need in the essential improvement by its author according to reviewers comments ! After such changing it is necessary to submit it again to NPG journal for new reviewer considerations.
