Received and published: 14 October 2016

We thank both reviewers for their thorough and professional commenting on the manuscript. We have added a supplement "npg-response-files.zip" that includes the comments, updated version of the manuscript and the differences to previous version.

We answer the referee comments in the file "npg-responses-to-referees.pdf" where the comments have been numbered and indented. The other two files are "manuscript-Constraining_ecosystem_model-v2.pdf" as well as latexdiff output from the previous version named "manuscript-differences.pdf".

Please also note the supplement to this comment:
