

Interactive comment on “Further Insights on the Role of Accurate State Estimation in Coupled Model Parameter Estimation by a Simple Climate Model Study” by Xiaolin Yu et al.

Xiaolin Yu et al.

shaoqing.zhang@noaa.gov

Received and published: 24 November 2016

A few conferences were held for authors to discuss the comments of 3 reviewers. All comments of reviewer 1 have been fully addressed in the revision. The first authors learned a lot from such commented points, and here the authors want to express great appreciation for the advice of the reviewer. The paper is revised as the reviewer's suggestions. New tables have been added in the paper. We also exchanged the location of section 2.2 and 2.3.

See the attachments.

Please also note the supplement to this comment:
