Received and published: 3 April 2018

We are extremely grateful to both reviewers for their thorough reading of our manuscript and recommendations provided on how to improve the presented material. We are now ready to prepare a revised version of our paper along the lines of our detailed response to the raised criticisms as given below, and would appreciate if we were given the chance to resubmit an accordingly modified paper that addresses the specific requests of both reviewers to the largest possible extent. Please find our detailed response attached as pdf.
