

Dear Colleague,

I have submitted the latest version of your paper to the referee who had asked additional results (referee #4). He/she is satisfied with this new version, and recommends acceptance of the paper as it stands. I will follow the referee's advice.

I also ask as Editor for two minor changes.

- You still use the word *development* (for instance in the caption of Fig. 5) in places where *variation* would be preferable in my mind.

- The acronym *GRD* (l. 31 of file npg-2021-22-ATC2) does not seem to be expanded in the paper.

I thank you for having submitted your paper to *Nonlinear Processes in Geophysics*.

With regards
