

2nd review of npg-2023-5

This revised version reads very well, and I strongly recommend it for publication.

There is a handful of typographical corrections:-

line 121	'Reproduced'
line 298/9 geodata have
line 508	asterisks?
line 728	hyphenation and spacing need adjustment
line 989	delete 'projection' and leave 'projections'
