Nonlinear Processes in Geophysics

Dear Editor,

On behalf of my co-authors and myself, I would like to sincerely thank you for accepting our paper for publication in *Nonlinear Processes in Geophysics*. We also extend our gratitude to the reviewers for their constructive suggestions and comments, which have helped improve the quality of our manuscript.

Please find enclosed the final revised version of our manuscript, titled “*Statistical and neural network assessment of the climatology of fog and mist at Pula airport in Croatia*”. The only modification compared to the previously uploaded version is on lines 96–97, where we have updated the information about Pula Airport with the latest data from 2024. Additionally, we have decided to omit the supplementary materials previously uploaded, as the manuscript revisions have rendered them outdated and no longer of additional value.

On behalf of all co-authors, I sincerely appreciate your time and consideration.

Yours sincerely,

Marko Zoldoš
